DECLARATION OF GERALD B. ROSENBERG

I, Gerald B. Rosenberg, declare that:

1. I understand that this Declaration will be filed in the United States Patent and Trademark Office in order to provide satisfactory evidence of facts indicating the seven sheets of the drawings were submitted in the above-identified application (the Application) as filed.
2. I am the principal of NewTechLaw, which has its place of business at 285 Hamilton Avenue, Suite 520, Palo Alto, California 94301.
3. I have employed Megan Beltran as a paralegal/administrative assistant at NewTechLaw since August 21, 2000. Ms. Beltran is the sole employee of NewTechLaw and the only person, other than myself, who was involved in the filing of the present application.

EXHIBIT D

4. Prior to January 2, 2001, I instructed Ms. Beltran to prepare the formal papers for the filing of the present divisional application of prior application 08/503,453.

5. On January 2, 2001, I personally reviewed the application package prepared by Ms. Beltran. I reviewed the Utility Patent Application Transmittal Letter and return receipt Post Card and each of the documents identified thereon as being present and complete in the application package. I confirmed that the application package included complete copies of the specification, drawings, and declaration from the prior application. I then executed the transmittal letter.

6. On or about January 18, 2001, the return receipt Post Card was received with the notation that the seven sheets of the drawings had not been received by the United States Patent and Trademark Office. A thorough search of the NewTechLaw offices was performed, including a search of the file wrappers of the present and prior applications. No copy of the drawings bearing labels affixed to the back of the drawings was found.

7. I hereby further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
